Please don't try to connect the server by 2G (EDGE) network - bugs solved- critical strike mode added Cs 1.6 for mobile all the way but I want to update to customize your hud layout and it's easier to play mobile to go against pc players but the game is very good I don't know why it is so popular so download the game now!!!! Now don't joke this is a very fun game! That's what you should add, reslated for weapons, new cold controls, adjustable controls to, and maybe you can make the crosshair smaller when you croyle just like csgo. thanks! 🙏🙏 can you guys have a more modern version of this game with better grsphics etc it's just like csgo so maybe if you make a more modern one that a good csgo might actually endorse you.
